Fighting the Press

C. H. McIntosh, the Tonopah attorney, now engaged principally at Rochester, the new mining excitement, in a recent declaration at Carson, announced that he had "the goat of the newspaper boys," and was going to run Nevada as he saw fit. McIntosh is chairman of the democratic state central committee and managed the campaign prior to the recent election. As the titular head of the democratic party in this state he has issued orders to the rank and file at Carson to stand in opposition to a bill recently introduced that concerned the printer's craft. The bill concerns the printing of supreme court briefs and has the backing of every newspaper publisher in the state. Concerning the attitude of McIntosh, the Carson Appeal, a democratic paper, has the following:

The fact that this bill was introduced by a democrat in high standing, I approved by the Nevada editorial association, makes no difference with Mr. McIntosh and his political ambitions. He is here to beat the newspaper boys in their work and knock their bill skyward. If Mr. McIntosh has such wonderful influence with a house filled with broad-minded men, and he alone is the dictator of laws, it would seem to be time that the members resign and pass the law-making over to the democratic chairman.

The people at the last general election saw fit to place more than one-tenth of its working staff in the two houses of the legislature in the hands of newspaper men.

There has been no disposition on the part of the printers and newspaper men to fight the lawyers, or to antagonize any branch or profession. It would seem that Mr. McIntosh is taking the entire responsibility of the Bar association on his shoulders and fighting the newspaper craft through his associates.

It would appear that McIntosh is usurping the powers of the legislature, if his boasts be true, that he would "kill the bill before the boys knew where they were at." It would also appear that the chairman of the democratic state central committee has a rather tough proposition on his hands in defying the press of Nevada. Other politicians have attempted such a feat in recent years and without an exception all have passed into oblivion. Such an attempt was made no longer than two years ago and the usual result was noticed.

The dictatorship as set up by McIntosh is bound to bring disastrous results not only for McIntosh, but for his entire party, and a warning note is issued by the Appeal in the following excerpt:

Considering the fact that Mr. McIntosh is occupying the position of chairman of the democratic party, and that he may desire the support of such papers in other democratic measures, it would seem that he is opening the avenue for plenty of disruption in the party lines. He found the party papers willing to lend their assistance a few months back, but at the present moment his memory for forgetting is extremely sharp.

The troubles of McIntosh have just started, and that worthy gentleman can now count himself along with the has-beens. He had an opportunity to profit by the examples of his predecessors, but the teachings were thrown away and now the once brilliant party leader can watch himself as he makes the decline from fame and prominence.

Uniform Grade Wanted

While in session the board of county commissioners should take some action with regard to the establishing of a grade on Main street for the laying of sidewalks in the future. The grade can be easily established and an ordinance enacted will compel property owners to comply with the requirements when building in the future. The present appearance of Main street is a disgrace to the city of this size, as the walks are constructed along a dozen or more grades. Steps and inclines are to be found every few feet, while if the county established a uniform grade it would be but a few years at the most until the entire length of the street would be one continuous walk with no unsightly interruptions.

Property owners would not be put to an extra expense to construct a walk on a uniform grade, and to the contrary uniform walks would greatly increase the value of all Main street property.

With boss rule applied to the legislature, startling legislation is to be expected. Boss McIntosh has cracked his whip and the public is now anxiously waiting to witness the lawmakers jump at the command of the chairman of the democratic state central committee. It was thought that the bosses had been driven out of Nevada, but the latest developments make it appear otherwise.

After a lengthy silence the Reno Journal appears to have embraced the idea of amending the present divorce law. However, it is not certain whether the Journal has taken this stand, for a recent editorial is worded with such care that a dozen different impressions can be gained upon its perusal.

TEL-A-PHONE

We'll Quickly Respond

When you want anything from a drug store, just step to the telephone and let us know what it is. We will respond quickly, for "prompt service" is one of our hobbies.

This method of ordering drug store goods will save you time and perhaps unnecessary delay. The goods we carry are the best obtainable. Anything not satisfactory can be returned or exchanged.

Get the telephone habit.

If you are in the city, delivery will be made by special messenger. If you live on a rural route, goods will be delivered promptly by parcel post.

The legislature has appointed a committee with a roving commission to investigate the manner in which various offices have spent state funds. It might not be a bad suggestion to request the committee to look into the manner in which the supreme court spent the extra \$1500 allowed a year ago for extra work performed in the compilation of the latest code.

It should be the duty of every person in Nye county to promote marriages. The county treasury is enriched to the extent of \$5 for every ceremony performed by the justice of the peace. The fee is returned to the county. The marriage industry is far better than the divorce industry.

Now Wyoming and Delaware are fighting over the honor of being the states to have cast the deciding vote in ratifying the income tax amendment. Both are anxious to be known as the tallenders of the union. They can have the honors.

There are more democrats than republicans in the legislatures of the United States. It is not our fault, so don't throw the blame this way.

Probably a Tammany hall will be organized in Nevada by the democratic leaders. What sayest thou, Mac?
